
Content Mambots not working

Posted by dylas - 2007/12/13 13:42

Hi,

I installed JACLPLUS 1.0.13 with Joomla 1.0.13 and after installing JACLPLUS all my content mambots are not functioning. Any idea how to resolve this problem.

I uninstalled JACLPLUS and the mambots are working.

Your help is greatly appreciated !!
