
User Group Manager edits not saved

Posted by ginkelb - 2008/02/23 23:48

Hi there,

I've been looking around the forum and have seen this problem mentioned a few times, however the answer to the problem is never posted.

I'm having a problem with the User Group Manager. Changed made to the ACO/AXO settings aren't saved. After clicking Apply or Save the original list just reappears.

Tested the problem under IE7 an FF2.

RUNNING:

Joomla 1.5.1

JACLPlus 1.5.0 Pro Stable

PHP 4.4.2

Apache 1.3.36

Can anyone assist?

Greeting from the Netherlands,
Bas van Ginkel
