
Joomla 1.11 upgraded to 1.15: How to upgrade JACL?

Posted by Humuku - 2008/03/03 04:49

Hi,

I upgraded Joomla 1.11 to the actual version 1.15. Now I would like to get JACLPlus working again. As I cannot find a patch file for a patch from JACLPlus 1.11 to JACLPlus 1.15 I wonder how to do the JACLPlus upgrade?

It would be really nice, if someone could tell me how to do the JACLPlus upgrade. Thanks!

Greetings,
Humuku.
