
Upgrade Fatal Error

Posted by 3rdidesigns - 2008/04/08 15:21

I have upgraded from 1.0.12 to 1.0.15 and Joomla appears to be working properly. However, when I try to access JACL Component through the Control Panle I receive the following error:

Fatal error: Cannot instantiate non-existent class: jacplus in
/mnt/drive2/home/httpd/vhosts/harbercraft.com/httpdocs/dealerportal/administrator/components/com_jaclplus/admin.jaclplus.php on line 52
