
upgrade joomla-jacl 1.012 to 1.015

Posted by destroy - 2008/04/24 17:32

Hello,

I have upgraded from my joomla 1.012 stable fr with JACLPLUS to joomla 1.015 .
I used the patch "joomla_1.0.12_to_1.0.15-stable-patch_package_jaclplus.zip" .
but now I have the error :
"Fatal error: Call to undefined function jacplusInList() in /var/www/vhosts/ville-mezeray.fr/httpdocs/components/com_content/content.php on line 1554" .

Can you help me

Hello,

I found the problem , I modified the permissions files and it work fine .
