
JACLPlus and nBill

Posted by cporter404 - 2008/07/01 02:49

Has anyone else used nBill with JACLPlus? nBill does not recognize the new user groups that I set up with JACLPlus. As a matter of fact, my menus (which are suppose to change according to the user's level) do not recognize JACLPlus levels either. Some assistance is definitely needed.

try the nbill forum... they are very helpful..

I use jacplus, nbill on joomla 1.0.15 .. all works fine!
