
Patch Component for Fireboard 1.0.5RC1

Posted by internetti - 2008/09/27 22:04

Hello,

can you please let me know when there will be Patch Component for Fireboard 1.0.5RC1 available ?
I had to install this new version of Fireboard because of an important bug and new features and looking forward now on the Jacl Plus patch for this component.

In case you are working on it already...would there be an option to test it as early adaptor (chartered member) ?

Thanks and regards

Markus

Fireboard 1.0.5 RC2 is released and said to be the best version ever so far.
Is there any chance of a JACLPlus to support the RC or will I have to wait until the final is released?
