
Migrate jacl from joomla 1.0.15 to jacl1.5.7

Posted by enestu - 2008/10/14 18:22

Hi,
Is there a tool or documentation to migrate users acl from a J!1.0.15 with Jacl1.0.15 to J!1.5.7 with jacl1.5.7 ?
It's for more than 400users +200 groups...

Thanks

=====

Is there better support, if i post with Login used to buy JACL ?

My company bought Jacl for two week and the first time i want to use support, there's no answer :angry: !

Hi,

Sending an email with your chartered member username should help:
http://www.byostech.com/component/option,com_fireboard/Itemid,33/func,view/id,1395/catid,16/

When testing the migration from 1.0.10 to 1.5.7, I found that the following migrator plugins are needed for the Joomla migrator component:

core_acl_aro_groups.php
core_acl_aro_sections.php
jaclplus.php

http://www.byostech.com/images/fbfiles/files/jaclplus_migrator_plugins.zip

The following lines need to be added to migrator.xml:

plugins/core_acl_aro_groups.php
plugins/core_acl_aro_sections.php
plugins/jaclplus.php

The migration is tricky because you first create the migration file in the old version of Joomla and then install a new Joomla 1.5.7 site, at the end of which the migrated tables are imported.

Now you can backup the database and then install JACLPlus. If JACLPlus resets its tables, you can restore from the backup and make sure the access levels and usergroups are correct.

Regards,

=====

I sent an email to ByOSTECH and got no response.

I am not yet a chartered member but this concerns me. We are on a limited budget so we can probably only afford a 3 month package to get the whole project fixed and upgraded.

I hope this is not the norm and we can be supported quickly as chartered members.

I was practicing my migration from a website 1.0.13 to 1.5.9 and noticed there needed to be migration plugins for some components.

I see there needs to be such a plugin for JAACLPLUS. However I can not test this until we are chartered members and we can not be chartered members until we are closer to make the full move and upgrade migration.

I have the Power Support anti-glare protector on my iPad. and it does a great job of reducing glare and avoid finger tips. convert protected wma to mp3 Chris Oldroyd, can you provide evidence that external GPS receivers work with non-jailbroken iOS devices? Without a video of this in action, why should we believe this is real?
